

ARCTIC SNOW MACHINE

Realistic, white, fluffy snow

Le Maitre's Arctic Snow machine creates an amazingly realistic snow effect. With its continuous high output covering an area approximately 18ft in diameter (depending on mounting height) and low fluid consumption, the Arctic Snow Machine offers unrivalled performance and reliability.

Le Maitre's new and improved Arctic Snow Fluid now produces even more realistic whiter, fluffier, lighter snow. Ready diluted for ease of use, the fluid is used with the Arctic Snow Machine as well as most professional snow machines. Arctic Snow Fluid is a water-based formula that is safe, non-toxic and 100% biodegradable.
